Chris Coutinho

Profile

Data analyst and research professional, with a strong background in data analytics and predictive modeling in industrial processes.
Looking for a new role that bridges the gap between technical staff and decision makers by enabling highly productive communication.

Projects

Kindervakantie 2019
A yearly project to take disadvantaged families from Amsterdam on an unforgetable vacation

🎓 Education

- Bachelor of Science in Environmental Resource Engineering
  Humboldt State University, Arcata, CA, USA. Sep 2009 – Dec 2013

- Evening class: Dutch
  Gemeente Leeuwarden, Jan 2015 – Jun 2015
  Achieved C1 language skill in Dutch.

💼 Experience

- Data Engineer
  FocusCura, Driebergen, Netherlands, Oct 2019 – Present

- Data Analyst/Researcher
  REDstack, Sneek, Netherlands. Oct 2014 – Oct 2019
  Developed and maintained data analysis ETL system with respect to industrial data acquisition technologies (SCADA) and big data at the Afsluitdijk pilot facility.
  - Analyze experimental results conducted at the Afsluitdijk pilot facility, and developed dashboards for decision-makers.
  - Use computational fluid dynamics (CFD) simulations to aid product development with academic and industrial project partners.
  - Organized and conducted software development workshops to enable better data analysis pipelines, build on best-practices, and increase collaboration within the organization.

- Research Trainee
  Deltares, Delft, Netherlands. Jun 2014 – Aug 2014
  Implemented various numerical experiments using WANDA, a validated software package for designing pipeline network systems. Numerical experiments were used to validate new features in development.

- Environmental Engineering Intern
  CRACYP (Corporación Red Arborizadora Campo y Progreso), Jilimbí, Ecuador. Jun 2013 – Aug 2013
  Designed and constructed a household drinking water treatment system. Detailed achievements include:
  - Designed and implemented the construction of a multi-step slow-sand water treatment filter.
  - Investigated local water supplies for possible contamination, and gave instructional lectures to locals about benefits of disinfection.
